

## Software Quality Assurance Engineer

**Name** : Thin Wutt Hmone  
**Education** : B.C.Sc (Qualified to Proceed for Master), University of Computer Studies (Hinthada), 2012 - 2017  
**Email** : thinnwutth@gmail.com  
**Portfolio** : <https://thinwutthmone.com/>

### About Me

I am a curious Automation Software QA Engineer with 6+ years of related experience. I have been working on banking automation projects, which are automating regression testing. I have proven in developing and testing web and mobile applications both manual and automation. My focus remains on delivering quality results within specified timelines.

When people ask me what I can do, I often respond with, "What do you need to be done, I'll find the way and I can make it happen."

After two years as a manual tester, I became interested in automation a lot. My leaders offer me an amazing opportunity that I have never done. Because they told me that I am a real go-getter. I say yes as I like embracing challenges even though I'm not sure I can do it. With only that reason, I became a test automation engineer. Due to that passion, I do self-studies a lot and I could make it happen.

I do not limit myself. Sometimes, I used to learn how to write API, C#, etc. I have a passion for learning new skills that I can apply to both work and everyday life.

### Skills

**Programming Language:** PHP, C#, Java

**Framework:** Selenium, Appium, Cucumber, BDD, Junit, TestNg

**Manual Testing:** Quality Assurance, API Testing, gRPC Testing

**Automation Testing:** API Load Testing, Web UI Automation, Mobile Web Automation, Android and ios Automation

**Tools:** Xcode, Docker, Git, Postman, BloomRPC, Jmeter, Gatling, Katalon Studio, Cucumber Studio, MQ Explorer, Offset Kafka, IntelliJ

**CI:** Jenkins

## ***Projects Experience***

### Automation

- Home Loan Web Portal
- Qualitative Credit Analysis Web Portal
- Yoma Mobile Banking Admin Dashboard
- Mobile Banking Web Portal for Enterprise Customers
- Mobile Banking Android and ios Applications for Personal Customers

### Load Testing

- New Yoma SMS services (API Load Test)
- Cash in/ Cash out project between Yoma and Wave (API Load Test)
- AML project (MQ Load Test)

### Manual Testing

- Yoma and Wave Integration Projects
- Interbank Transfer Project from mobile banking application
- Bill Payment Project from mobile banking application
- New Yoma SMS Gateway Project
- Bookkeeping Application
- Leave Submission Application
- OneKyat ecommerce application
- Clinic Mobile Application (eClinic from Singapore)
- Ecommerce Mobile Applications and Web Applications (from Myanmar, Singapore and Japan)
